Looking back on our high school years, the "Class of '84" had many memories. There were certain trends and styles common to most seniors. For instance, the most popular classes were honor time for boys and business classes for girls. Seniors seemed to roam the halls a lot, using their favorite excuses, "Can I go to the bathroom?" and "I have to talk to Mrs. Terry." Most every senior wore Levi's and went to the mall at least once a week. Cruising town was also a must on weekends. Believe it not, most seniors paid their parking fees and made it to class on time. The "Class of '84" had many favorites, such as the albums *Thriller* and *Pyromania* and the movies *An Officer and a Gentleman* and *Porky's*. The Mustang was the most popular car for girls and GMC trucks were favorites for boys. After graduation seniors of '84 either plan to attend college, to pursue a career, or to get married. Overall, our class was a wonderful mixture of the unique and the not so unique, proving that we were just typical teenagers.

## WAYNE POWERS MADE ALL-AREA BASEBALL TEAM

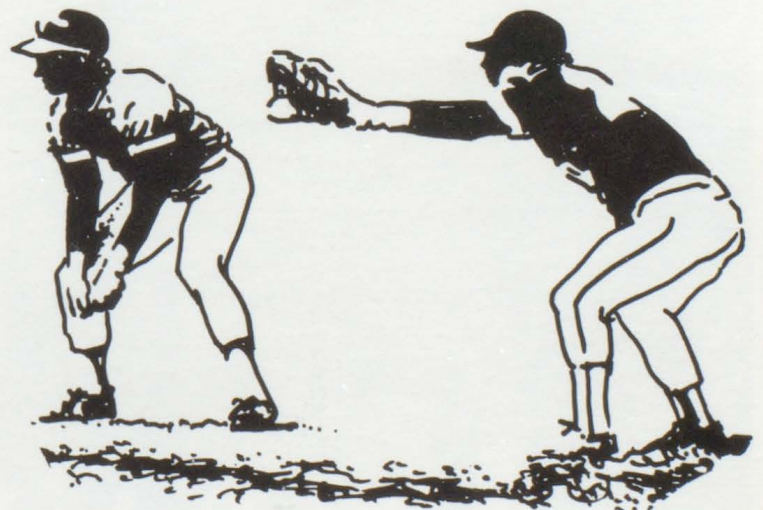

Chris Mullens winds up for a pitch.

Oh, no, I screwed my arm on backwards this morning!

During the winter months, the hopes for having a baseball team were slim. Money was scarce for all athletics and it looked as if the spring sports might be left out in the cold because of lack of funds. But everyone pitched in and the baseball players were determined to have a team. They sold glasses, vanilla extract and jewelry to try to raise money; and, finally, they were able to scrape up enough to have a team. But the problems weren't over yet; they still didn't have a field to play on or even to practice on. They were forced to practice in the parking lot in the back of the school. Even with all the hardships the team went through, they were able to come out of it with a great season.
